

Community Law Kit

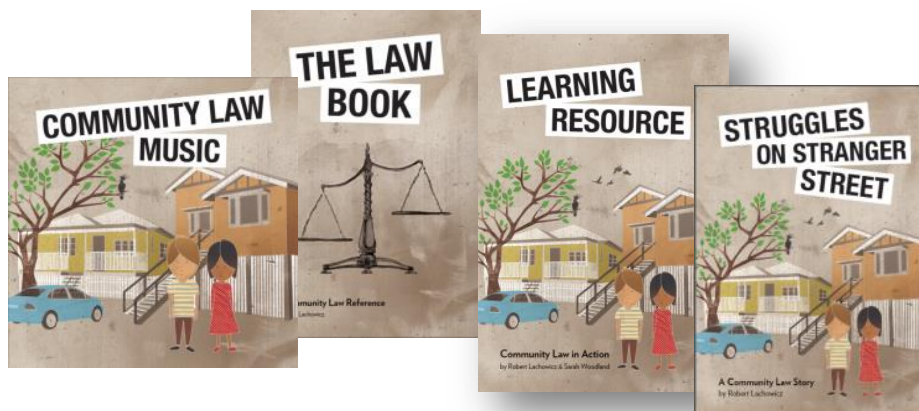

Learn Language and Law through drama, music and song

Learn English language and the law through the “Community Law Kit” - a Reader, CD, Law Book and Learning Resource exploring practical approaches to everyday legal problems through drama, music and story.

Community law explores legal problems faced every day in the community and makes practical suggestions for what we can do, say and write in order to assert our legal rights, prevent legal problems arising and get help when needed.

The Kit covers legal issues and life skills that every student and new migrant needs to live successfully as an independent adult in our community.

The topics covered in the resource kit include consumer rights, rental rights, managing credit card debt, neighbourhood disputes, buying a car, seeking review of government decisions, and dealing with bullying, discrimination and harassment.

The information and laws are written in a sufficiently generic style to make the Kit applicable nationally.
